INDEX.

A

Abattoir, public, in advocacy of the, 1369
——, the new public, at Brighton, 59
Abattoirs, public, for London, 1211
Abbott, Mr. F. C., subdiaphragmatic abscess communicating with right pleura successfully treated by resection of rib and drainage, 1033
Abdomen, penetrating wound of, a case of, 1420
Abdominal abscess, a case of, 440
—— dropsy, the phenomena concerned in the production of, 1210
—— pain, deceptive, in latent hernia, especially with reference to the surgical aspect of certain cases of so-called indigestion, clinical lecture on, 617
—— section, two cases of rupture of gonorrhœal pyosalpinx, resulting in large intraperitoneal abscess, opened by, 137; for ruptured tubal gestation, 1099; removal by, of a subperitoneal fibroid which had sloughed and was lying free in an abscess cavity, case of, 1346; and suture, rupture of male bladder successfully treated by, 1032
—— surgery, some cases of, 1481
Aberdeen Medico-Chirurgical Society, the, 5171
—— University, meeting of the university court of the, 142; regulations of, 499; the quatercentenary of, 1289
Abernethian Society of St. Bartholomew's Hospital, 931
Ablution after necropsies, 1587
Abnormalities of muscular action, discussion on, 27
Abortion, simulation of pregnancy and, 1540
Abortionists, advertising, 362
Abraham, Dr. P. S., contagious skin diseases in schools, 275; an improved apparatus for the introduction of fluids into the skin under pressure, 859; lupus vulgaris of the face, 1486
Abscess in the right cerebellar hemisphere associated with paralysis and fits limited to the same side, 190
Accentuated second sound, the clinical significance of, 729, 877
Accommodation in the House of Commons, 751
Acland, Sir Henry, the resignation of, 1047
Acne vulgaris, the etiology and treatment of, 357
—— varioli formis, 1438
Acromegaly, 1158, 1487; with ocular complications, case of, 1428
Act, the Shop Hours, 1499
Actinomycosis extensively involving the skin, 1154
Action for damages for wrongful detention as a lunatic, 1518
—— to recover a large bill, and its lessons, 452
Adams, Dr. J., the practical treatment of diphtheria with antitoxin, 1310
Adams, Mr. M. A., on the relationship between the occurrence of diphtheria and the movement of the subsoil water, 609
Adams, Mr. W. C., lunacy in hospitals, 1448
Addenbrooke's Hospital and the Cambridge University Medical School, 1499
Adenoid carcinoma of kidney, 1095
—— vegetations in the naso-pharynx, 1490
Adenoma of kidney, congenital cystic, 1095
—— sebaceum, case of, 1156
—— of the tongue, 856
——, thyroid, and cystic accessory thyroid, removal, a case of, 1087
Adonis vernalis with bromides in epilepsy, 1238
Adults, chicken-pox in, 421
Advertisement for a medical student, 721
Advertising abortionists, 362
—— by dentists, 754
—— cards at St. Helens, 1013
Aerial convection of small-pox, the, 41, 110
Aero-therapeutics, or the Treatment of Lung Disease by Climate (review), 81
After-damp, the prevention of death from, 1293
Age-retiring regulations for the army medical service, the amendment of the, 868
Agencies, benevolent, of the profession, 1571
Air, compressed, working under, 94
——, compressed, auditory vertigo caused by working in, a case of, 1088, 1248
—— passages, foreign body in the, for a period of nine months, a case of, 321
Alabaster v. Harness, 393
Alabaster and Others v. Harness and the Medical Battery Company, Limited, 1381
Albrecht, Professor K. M., death of, 765
Alcohol, the consumption of, in French towns, 603; prize essays on, 1459
Alcoholic coma, 1517
Alcoholism, strophanthus in, 212
Aldershot camp, the sanitation of, 1119
Alderson, Dr. F. H., the amount of membrane in diphtheria as an element of prognosis, 1374
Alexander, Dr., presentation to, 113; large mixed-celled sarcoma, 1487
Alexandria, antitoxin serum in, 1453
Alkaloids, the external application of, in diseases accompanied by cutaneous manifestations, 468
Allen, Mr. A. H., the detection of sugar in the urine, 212
Althaus, Dr. J., tic douloureux and electricity, 54; hypochondriasis and nosophobia, 854
Aluminium for cooking utensils, the use of, 175
Amalgamation of the City and County of London, 803
Amblyopia, persistent, due to quinine, 1314
Ambulance classes, 1194, 1258
—— Lectures, First Aid to the Injured (review), 1101
—— work, exhibition of, at Chudleigh, 325
America, abolition of the office of coroner in, 1294
American Dermatological Association, Transactions of the, at the Seventeenth Annual Meeting in September, 1893 (review), 197
—— Public Health Association, meeting of the, 949; Mr. H. F. Nuttall on hygienic notes of a journey through Italy in 1894, 949; Dr. B. Lee on the cart before the horse, 949; Dr. W. Johnson on sedimentation in water, 949; Dr. Bell, "the Long Island water basin, Brooklyn's reservoir," 949; Mr. G. W. Fuller on the benefits of land and loam filtration, 949; Mr. Hodgetts on the management of epidemics of diphtheria in the rural districts, 949; Dr. E. Gauvreau on the culture and collection of vaccine lymph, 950; Dr. Wordin on tuberculosis, its restriction and prevention, 950; Dr. Cameron on the hygiene of the young in schools, 950; Mr. J. Mitchell on plumbing in sanitation, 950; Dr. T. D. Crothers on the influence of inebriety on public health, 950; Dr. Smart, report on the pollution of water-supplies, 950; conversazione at M'Gill University, 1007; hygiene in schools, 1007
—— Ophthalmological Society, Transactions of the (review), 1543
Amir of Afghanistan, the health of the, 930, 1048
Amniotic bands, amputation in utero by, 1352
Amputation, bloodless, at the hip-joint, 964
—— without permission, 207
Amusements and public morality, the ethics of, 924
Amyot, Mr. T. E., how a presbyope can read without the aid of glasses, and an excellent substitute for an ear trumpet, 1524
Anæmia, pernicious, 27, 1274; iron deposits in, 1161; subdural hæmorrhage in, 1347
—— associated with flagellated protozoa in the blood, 1488
——, the mode of action of iron, and the relative value of its salts in, 1098
—— with cord changes, 449
Anæsthetic, the most effectual local, 420
—— mixture, Mr. Lawson Tait's, a case of death under, 103
Anæsthetics, 1426; in Dental Surgery, Notes on (review), 83
—— during 1894, 1556
——, fatalities under, 397
——, payment for the administration of, 1110
Anæsthetists, Society of, annual meeting, 979

ANALYTICAL RECORDS FROM THE LANCET LABORATORY.—Californian white wines and brandy, Big Tree brand; wine of cod-liver oil, cascara aromatic, Dike's pepsin in scales; loretin; diastised meal biscuits; Fels' germicide soap; Catley Abbey water; kola peptone cakes; "Vinestal" and orange quinine tonic water; phenosalyl, 30—Sterilised milk and cream and milk powder; glycerine and oil of eucalyptus pastilles; liquid pepsin,

byk; compound lime and iron mixture, tannin liniment, and hamamelis unguent.; Dover pale ale and stout; cascara jelly (horse-shoe brand); bronchi-fume; Sanitas disinfector; Norfolk food of strength, 198—Tea tabloids; invalid claret; (1) "symphorol," a new diuretic, (2) "Senalia" soap; baking powder; (1) Italian eucalyptus compounds, (2) eucalyptine, (3) Chianti, (4) Italian champagne; Elizabeth spring, 386—"Cerebos" nutritive table salt; Salutaris water; Moonlight ointment; Kingzett's "sulphugator"; (1) protochloride of iron pills, (2) phosphorus pills; "Monti Toscani" wine made from grapes grown in Chianti, Tuscany; Spécialité lime-juice cordial, 443—"Vimbos" fluid beef; granulated effervescent bitartrate of lithia; Wilhelmina water, saline-chalybeate (Haarlem); banana flour and dried fruit, 793—mistura damianæ composita; Fiogo, a farinaceous food; pepsin and meat pepsin biscuits; V.V.O. Scotch whisky; iron jelloids, an improved form of Blaud pill, each containing ten grains; Royal Selters natural table water; Kirby's saponaceous thymol powder; "Perfection" flour and bread; (1) diaphtherin, (2) emol kelcet; Kreat halviva, 919—Tonnissteiner, a natural sparkling mineral water; pure wine vinegar; peptic meal germ ideal bread; Elizabeth spring water; "hæmoferrum" (Stearns'); "Soy" biscuits, bread, and flour for diabetes; various soaps, 1164

Anastomosis button, intestinal approximation, with especial reference to the use of the, 621
——— of the small intestine, case of, 1155
Anatomical changes in diphtheritic paralysis, 450
Anatomy, the teaching of, the situation reviewed, 558
——— and pathology of the eye, lectures on the, 1329, 1463
——— and Physiology, 1554
Anchylostomiasis, 231
Ancoats Healthy Homes Society, the, 667
Anderson, Dr., of Seaton Delaval, accident to, 166
Anderson, Dr. T. M., a Treatise on Diseases of the Skin (review), 139
Anderson, Mr. J., health report of Blackpool urban sanitary district, 161
Anderson, Mr. R. B., Civil Rights Defence Association, 815; the case of, and the Civil Rights Defence Committee, 1578
Anderson, Mr. W., a case of cholecystotomy, 1152
Anderson fund, appeal by the Civil Rights Defence Committee on behalf of the, 220
Anderson appeal fund, the, 1132
Anderson *v.* Gorrie and Others, 333
Aneurysm, femoral, 1489; of aorta, 1539
———, intra-cranial, cases of, 913
——— in young subjects unaffected with syphilis or malignant endocarditis, cases of, 913
———, latent, the diagnosis of, 807
———, multiple, in which one brachial and both external iliac arteries were ligatured, a completed case of, 1142, 1160
———, popliteal, cases of, 439, 1156
———, pulsatile congenital cyst simulating case of, 1281
———, pulsatile tumour of the popliteal space simulating, 795
——— of the anterior communicating artery, 1427
Aneurysms of arteries of the extremities, the treatment of, by extirpation of the sac, 1143, 1160
Angio-neurotic œdema, a case of, 76, 165
Angular spinal curvature, 979
Aniline in phthisis, 588, 711
Animals, the care of, 867
———, diseased, in London, 331
———, diseased, the method of destroying the carcases of, at Hamburg, 158
———, experiments on, 209
———, surra in, 873
Ankle-joint, arthrectomy of the, 27
Ankyloblepharon, complete, 1159
Ankylosis, angular, excision of both knees for, 1215; of the jaw, operation for, 1427; of the spine and obscure enlargement of the right foot, a case of, 1028
Anodynes and hypnotics, 639
Anten, Dr. J., death of, 232
Anterior nares, cystic tumour of the, 1030
——— poliomyelitis, chronic, 209
Anthelmintic, thymol as an, 1273
Anthrax carbuncle, case of, 1098
——— in London, the prevalence of, 207
———, inoculation against, 827
Anthropometric measurement of criminals, the, 208
Anti-corset league, an, 699, 1393
Anti-diphtherite, the, 579
Anti-rabic Institute at Marseilles, an, 1003
Anti-toxic effects of salamander's blood, 590
Anti-toxic serum, diphtheria treated by, in country practice, 455; treatment of diphtheria, the diagnosis and lecture on, 1409; proprietary rights in, 1501
Anti-vaccination, the poesy of, 1013
——— and demonology, 87
Anti-vivisectionists, Professor Schäfer on the, 448
Antiseptic alkaline tabloid for naso-pharyngeal diseases, an, 911
Antiseptics in the field, 663
Antitoxin, distribution of, 1297
———, beneficial effect of, after tracheotomy in a case of diphtheria, 1091
———, chronic tetanus treated by, 1220
———, diphtheria treated with, death from cardiac failure, case of, 1090
——— injection, hypodermic syringe for, 1355
——— serum, a visit to Paris to inquire into the practical treatment of diphtheria with, 1173, 1235
——— treatment of diphtheria, 152, 791, 973, 1004, 1027, 1065, 1106, 1127, 1150, 1168, 1290, 1310, 1375, 1449, 1518, 1537; the Paris Academy of Medicine and the, 1044; Lord Coleridge on the, 1438; on the Austrian Riviera, 1438
——— treatment of tetanus, 1251
"Antitoxin" and "antitoxine," 1295, 1360
Antrectomy for persistent suppuration of the middle ear and its complications, 1221
Antwerp Universal Exhibition, the, 97, 155, 218, 810
Anuria, complete, a case of, 1426
Aorta, aneurysm of, 1539
Aortic regurgitation, on the pulsus bisferiens of, 1529
——— stenosis, the pulse in, 1206
——— valve disease, 1220
Aphasia, uræmic, 1126
Aphrodisiac effect of morphine on the fowl, 890
Apothecaries' Society, regulations of the, 504
Apothecaries, Society of, of London, 1585
Appendicectomy, 1490
Appendicular abscess, with perforation, 1427
Appendix vermiformis, five cases illustrating the diseases and the surgery of the, 257, 322
Appleyard, Mr., puerperal conditions and uterine drainage, 1427
Archæological Survey of India, the Bower Manuscript (review), 918
Archives de Neurologie (review), 386, 744, 1286
Argon, 1573
Aristol in otorrhœa and burns, 1112
Arm, right, intermittent monoplegia of the, associated with acute bronchitis, 438
Armstrong, Dr. H. E., on sanitation and the merchant services, 608
Armstrong, Dr. W., health report of Newcastle urban sanitary district, 404
Army as a career, the, 641
——— estimates, the, 46, 99
——— medical organisation, 1293
——— medical school, Netley, 270
——— medical service, the, 1366; the amendment of the age-retiring regulations for the, 868
———, navy, and Indian medical services, regulations of, 506
——— surgeon, brilliant rescue by an, 475
——— veterinary department, 643
Arnison, Dr. W. D., presentation to, 657
Aronson's antitoxin, diphtheria treated with, 856; antitoxin diphtheria, six cases of tracheotomy for diphtheria treated by, 851
Arsenic, the administration of, 1058, 1120
———, facts, legal and medico-legal, in the administration of, 979
——— in glycerine, 1525
Arsenical poisoning, alleged, case of, 347
Arteries, common carotid, compression of the, for uræmic convulsions, 438
———, large traumatic rupture of, cases of, 277
Arthrectomy of the ankle-joint, 27
Arthritic inflammation, closure of the jaws from injury and, 187
Artisans' block dwellings, the rates of mortality in, 718
Asclepiad, the (review), 1037
Ashby, Dr. A., health report of Reading urban sanitary district, 404
Asparagus, the action of, on the kidneys, 53
Asphyxia neonatorum, the nature and treatment of, 6, 628; a case of, 1277
Assault by a surgeon, 1519
Assistants and locum tenentes, proposed association of, 1311
———, unqualified, the employment of, 1494
Asthma, cases of, at the City of London Hospital for Diseases of the Chest, Victoria-park, 318
Aston, Mr. J., health report of Eccleshill urban sanitary district, 709
Asylums, patients' payments in, 1501
Asystole, the treatment of, 763
Ataxia and the diseases of which it is a symptom, 352
———, tabes dorsalis without, 1348
Athetosis and its pathology, 701
Atkinson, Rev. J. W., fresh air for East London children, 237
Atkinson, Mr. F. P., diphtheria and its association with sewer air and road-level ventilators, 999
Atmospheric conditions of electrically lighted liners, 712
Atrophy, circumscribed, of the hair and skin of the scalp, 573
——— of the cerebellum, 870
———, extensive primary, of the muscles of the limbs and trunk, with lordosis and some contraction of the hips, case of, 1157
———, idiopathic muscular, 1489
———, the influence of cicatrix in the production of, and its utility in surgery, an address on, 961
———, progressive muscular, 1487
——— with collapse (cirrhosis), fibroid degeneration, and angioma of the ovaries, 1158
Attfield, Mr. J., Chemistry, General, Medical, and Pharmaceutical, 482
Auditory vertigo caused by working in compressed air, a case of, 1088, 1248
Aural polypus forceps, self-retaining, 1355
Auscultation of the second sounds of the heart, note on the, 789
Australasia, the Intercolonial Medical Congress of, 1111, 1115

AUSTRALIA, CORRESPONDENCE FROM.—Sanatoria for phthisical patients in Australia, 57—Infectious diseases hospitals, 57—Hospital Saturday in Sydney, 57—Prevalence of diphtheria and scarlet fever in Victoria, 58—Death under chloroform, 58—The St. John Ambulance Association, 113—Action for malpraxis, 113—Alleged neglect at a private lunatic asylum, 114—A new medical journal, 114—Alleged ill-treatment of lunatics in a private asylum, 346—Action to recover damages from a medical man, 347—Case of alleged arsenical poisoning, 347—Action of snake venom on the blood, 347, 1252—Blindness in horses produced by their eating the native tobacco plant, 347—A new food for use in typhoid and other fevers, 347—The surgical treatment of hydatid cysts, 347—Sanatorium for Infectious Diseases at Melbourne, 659—Hospital appointments in Adelaide, 659—The chairmanship of the Board of Health, Victoria, 659—Charitable institutions in Victoria, 659—The medical bill for New South Wales, 660—A hydatid cyst in the sac of a congenital hernia, 660—Hysterectomy for diffuse sarcoma of the uterine mucous membrane, 660—The new hospital at Sydney, 828—New cottage hospital for western suburbs, Sydney, 828—New cottage hospital at Williamstown, Victoria, 828—Treatment of hydatid disease, 828—Inter-colonial Medical Congress, 829—Mortality of Sydney, 829—A medical union for Victoria, 1252—Vital statistics of Sydney, 1252—Case of hyperpyrexia in delirium tremens, 1252—Experiments with ringworm fungus, 1252—Recommendations *re* new British Pharmacopœia, 1252—Successful case of Loreta's operation, 1252—Bond's operation for hydatids, 1252—Veterinary inspection of cattle, 1380—Prevention of lead poisoning among miners, 1380—Compulsory notification of disease in Queensland, 1380—Medical interviews in the press, 1380

Australia, sanatoria for phthisical patients in, 57
Austria, railway ambulance in, 1232
Austrian Riviera, diphtheria in the, 866
———, the antitoxin treatment of diphtheria on the, 1438
Avenues of the tubercle bacillus, the, 1226
Axial rotation of ovarian cysts, causing twisting of the pedicle, 1283
Axilla, scirrhous tumour of the, 1347
Axis tractor, a new, 261

B

Bacteria, the *rôle* of, in butter-making, 209
——— in British baked breads, 1376
Bactericidal agents, injections of, 42
Bacteriology of ice creams, the, 862
——— in its practical aspects, 1096
——— and the medical curriculum, 487, 656
Bacup urban sanitary district, health report of, 404
Badge of the Congress of the Institute of Public Health, 236
Bairstow, Mr. T., obituary notice of, 232
Bakehouses, the London vestries and the, 925
———, insanitary, master bakers and the, 1170
Baking, does it sterilise bread? 906
——— and allied industries, hygienic improvements in the, 758
——— powder, 387

Baldwin, Mr. F. J. J., St. John ambulance work, 1122
Balfour, Professor F., the elements of embryology, 481
Balfour, Dr. G. W., The Senile Heart, its Symptoms, Sequelæ and Treatment (review), 1428

treated with arsenic and inhalation of oxygen; Supernumerary testis, 1281—Series of eighty cases treated with diphtheria antitoxin; Some cases of rapid cure of diphtheria by means of antitoxin, 1483—Antitoxin treatment of diphtheria, 1537

EDINBURGH MEDICO-CHIRURGICAL SOCIETY.—Note on a method of trephining; The treatment of ununited fracture by passive congestion, 1161—Exhibition and cases of specimens; Electrical vision; Stricture of œsophagus; cardicentesis, 1540

EDINBURGH OBSTETRICAL SOCIETY.—Exhibition of specimens; Simulation of pregnancy and abortion; Unilocular blood cyst; Rigor mortis in the fœtus, 1540

GLASGOW OBSTETRICAL AND GYNÆCOLOGICAL SOCIETY.—The honorary president's address, 1099

HARVEIAN SOCIETY.—Spina bifida; Congenital heart disease; Reduplicated first sound of the heart with a systolic bruit; Early occurrence of lateral sclerosis after syphilis; Infantile spastic paraplegia; Perforation and cicatrisation of palate from congenital syphilis; Five cases of calculi, 978—Bacteriology in its practical aspects, 1096—Disease of the knee-joint; Suture of the urethra after rupture and external urethrotomy, 1282

HUNTERIAN SOCIETY.—Syphilitic disease of the spinal cord; Compressed skull in an infant; Gastro-jejunostomy for pyloric obstruction; Tabes dorsalis without ataxia, 1348—Treatment of skin diseases by thyroid extract, 1436

HUNTERIAN SOCIETY.—Aneurysm of aorta; Carcinoma of bladder; Carious lumbar vertebra; Fibrosis of lung; Bronchial cast; Gall-stones, 1539

ISLINGTON MEDICAL SOCIETY.—Gout and its relationship to uric acid, 1096

KIDDERMINSTER MEDICAL SOCIETY.—Exhibition of cases, 80—Intussusception in a male; Abscess of the liver; Lupus; Chloroform anæsthesia, 797

LEEDS AND WEST RIDING MEDICO-CHIRURGICAL SOCIETY.—President's address; Exhibition of specimens and cases, 1035—Treatment of aneurysm; Double mastoid abscess with septic thrombosis of the left lateral sinus, 1180—Complete Anuria; Anæsthetics; Exhibition of cases and specimens, 1426

LIFE ASSURANCE MEDICAL OFFICERS' ASSOCIATION.—Gout and life risks, 1348

LIVERPOOL MEDICAL INSTITUTION.—Exhibition of specimens and cases; Gonorrhœa and stricture; Facts, legal and medico-legal, in the administration of arsenic, 979—Fœtal ascites; Acute ascending (Landry's) paralysis; Enterectomy for cancer; Infectious Diseases (Notification) Act, 1889, 1098—Chronic tetanus treated by antitoxin; Discussion on rabies, 1220—Sarcoma of the larynx; Enterectomy for gangrene of bowel; Successful Porro's operation; Exhibition of specimens; Vaginal hysterectomy for uterine cancer, 1351—Exhibition of cases; Amputation at the hip-joint for sarcoma, 1487

MANCHESTER MEDICAL SOCIETY.—Ankylosis of the jaw; Appendicular abscess; Otitis pyæmia; Traumatic tetanus, 1427

MEDICAL SOCIETY OF LONDON.—Special general meeting, 79—President's inaugural address; Hypochondriasis and nosophobia, 854—Laparotomy for perforating ulcer of the duodenum; Additional cases of perforating ulcer of the duodenum, 976—Cæcal colotomy or malignant intestinal obstruction, anastomosis of small intestine; Dislocation of humerus with fractures of surgical neck; Aneurysm of popliteal artery; Unusual villous tumour of bladder; A cretin under thyroid treatment, 1155—Subcortical cerebral tumour treated by operation, 1280—On the value of exciting cellulitis in certain urinary diseases; Cystic polypi of nose, 1423

MIDLAND MEDICAL SOCIETY.—Exhibition of specimens and cases; Operations for gall-stones, 1035—Exhibition of cases and specimens; Axial rotation of ovarian cysts, causing twisting of the pedicle, 1283—Exhibition of cases; Advisability of combining into one disease various catarrhal affections, 1489

NORTH LONDON MEDICAL AND CHIRURGICAL SOCIETY.—Bacteriological diagnosis of diphtheria, 1486

NORTH-WEST LONDON CLINICAL SOCIETY.—Unusual pigmentation; Nasal disease; Congenital syphilitic ulceration of the tongue, 1487

NORTHUMBERLAND AND DURHAM MEDICAL SOCIETY.—Exhibition of cases and specimens, 916

NOTTINGHAM MEDICO-CHIRURGICAL SOCIETY.—Progressive muscular atrophy following injury; club-foot, 1489

OBSTETRICAL SOCIETY.—Temperature after delivery in relation to the duration of labour; The change in size of the cervical canal during menstruation; Exhibition of specimens, 80—Pelvic inflammation attended with abscess of the ovary; Exhibition of specimens, 80, 855—New and speedy method of dilating a rigid os in parturition; Atrophy with collapse (cirrhosis), fibroid degeneration, and angioma of the ovaries; decidual cast as evidence of extra-uterine gestation, 1158—Primary carcinoma of the uterus in which hysterectomy was performed; Exhibition of specimens, 1424

OPHTHALMOLOGICAL SOCIETY.—Filaria loa; Tuberculous keratitis; Equatorial rupture of the choroid; Cataract, 977—Lamellar cataract and rickets; Complete ankyloblepharon, 1159—Plastic cellulitis of the orbit; Osteoma of the conjunctiva; formol as a hardening agent; Papillary conjunctivitis, 1485

PATHOLOGICAL SOCIETY.—Strangulated ventral hernia; Recto-vesical fistula; Tumour of supra-renal capsule; Polypoid tumour of œsophagus; Sporozoa of variola and vaccinia, 915—Myeloid corpuscles in rare examples of cancerous disease; Extensive peri-renal hæmorrhage; Mediastinal tumour invading lung; Congenital cystic adenoma of kidney; Adenoid carcinoma of kidney; Perforation of soft palate in scarlet fever, 1094—Malignant disease of larynx; Acute septic epiphysitis; Malignant disease in glands of groin with secondary growths in skin; Epitheliomatous cysts of neck; Wolffian adenoma of kidney, 1218—Subdural hæmorrhage in pernicious anæmia; Cancer of an "axillary breast"; Cystic kidneys; Chondro-sarcoma of humerus, 1347—Tumour of palate; Post-rectal dermoid forming a rectal polypus; Malignant tumours at the base of the skull; Subdural hæmorrhage in infantile scurvy; Hepatic infarcts; Observations on the repair of tendons; Pharyngeal pouch, 1482

PATHOLOGICAL SOCIETY OF MANCHESTER.—Exhibition of specimens, 1283—Exhibition of cases and specimens, 1489

PLYMOUTH MEDICAL SOCIETY.—Angular spinal curvature, 979—Exhibition of cases and specimen, 1488

ROYAL ACADEMY OF MEDICINE IN IRELAND.—Iron deposits in pernicious anæmia; tuberculous iritis; Melanotic tumour of eye; Spontaneous fractures of the clavicle, 1161—Argyria; Therapeutical traditions; Smallpox; Relieving an obstructed bowel; Cancer of upper and lower jaw, tongue, and floor of mouth, 1284—Exhibition of specimens; President's address, 1351—Notes on a case of acromegaly; Case of typhoid fever, 1428—Appendicectomy; Adenoid vegetations in the naso-pharynx, 1490

ROYAL MEDICAL AND CHIRURGICAL SOCIETY.—The results of the Hyderabad Chloroform Commission, 23—The surgical treatment of diffuse septic peritonitis, 975—Actinomycosis extensively involving the skin, 1154—Treatment of respiratory affections by means of large medicinal injections through the larynx; A year's experience of the use of sulphur in surgery, 1279; The influence of heredity in phthisis, 1422

SHEFFIELD MEDICO-CHIRURGICAL SOCIETY.—President's address, 1036—Exhibition of cases; Oöphorectomy for uterine fibroid; Hæmato-salpinx; Kopftetanus treated with antitoxin, 1099—Exhibition of cases and specimens; Plastic operation for ectopia vesicæ; Antrectomy for persistent suppuration of the middle ear and its complications, 1221—Exhibition of cases; Indurative mediastino-pericarditis; Uræmic asphyxia, 1488

WEST KENT MEDICO-CHIRURGICAL SOCIETY.—The mode of action of iron and the relative value of its salts in anæmia; the uses of sulphur in surgery, 1098

WEST LONDON MEDICO-CHIRURGICAL SOCIETY.—Presidential address; The difficulties of prognosis in insanity; Exhibition of specimens, 856—Discussion on diphtheria, 1097, 1219—Exhibition of cases, 1425

WIGAN MEDICAL SOCIETY.—Uterine displacements; Use of forceps in midwifery practice; hydrophobia, 1427

Medical Society of London, special general meeting of, 79
—— specialists, impatient, Debrett's Peerage and, 807
—— student, advertisement for a, 721
—— students, an address to, 477; class guide, 511
—— study, mental training in, an introductory lecture on, 775; scholarships given in aid of, 536
—— subjects, stray thoughts on some, an address on, 1197
—— teachers, 535
Medical thought and practice, a right perspective in, 803
—— titles, the vexed question of, 856; and parish council elections, 1326
—— Treatment, Outlines of (review), 692
—— "victim of civility," a, 1293
—— witnesses, inquests without, 1245, 1377; remuneration of, 872, 941, 998, 1059, 1120 1185
Medicinal plants, the cultivation of, in Russia 231
Medicine, Dictionary of, including General Pathology, General Therapeutics, Hygiene, and the Diseases of Women (review), 28; its relation to the spirit and tendencies of the age, presidential address on, 125; a Text-book of the Theory and Practice of (review), 196; shorthand in, 228, 1292; address in, delivered at the annual meeting of the British Medical Association held in Bristol in August, 1894, 239, 262; time indicator, 387; Biology, and Allied Sciences, an Illustrated Dictionary of (review), 690; Index of (review), 857; and surgery, address on the scientific study and practice of, 931; Mr. Passmore Edwards and certain critics of, 990; Edinburgh University degrees in, for women, 995; the Theory and Practice of (review), 1163; and letters, 1365, 1440; forensic, 1552
—— and pathology, 1545
—— and surgery, the pleasures of, an address on, 837, 854
Medico-Psychological Association of Great Britain, 1129, 1254, 1324, 1521
Mediterranean, a new health resort in the, 722
Meetings of the General Medical Council, 1562
Megalo-cystic kidneys, a case of, 1347
Melbourne, sanatorium for infectious diseases at, 659
Melville, Mr. S., domestic drugging, a case of antipyrin poisoning, 1515
Membrane, the amount of, in diphtheria as an element of prognosis, 1374
Membranous inflammations of the throat, bacteriological diagnosis of, 1486
Memorial to the late Dr. Sturges, 1573
Memory of movement, the effect of time on the, 149
Menotherm, the, 199
Menstruation, the change in the size of the cervical canal during, 80
Mental condition in chorea, the, 1173
—— confusion, hospitals, "vivisection," and, 446, 466
—— development, arrested, a plea of, 1313
—— disturbance, herpes zoster caused by, 851
—— therapeutics, 408, 1108, 1246
—— training in medical study, an introductory lecture on, 775
Menthol inhaler, new, 1355
—— in tuberculosis, the use of, 1525
——, the use of, in tuberculosis, 1397, 1461
Mercurial stomatitis, pathogenesis of, 284
Mercurialised traumaticine in syphilis, 560
Mercury, bichloride of, in diphtheria, 656
——, effect of, on the blood, 455
Merry, Rev. W. W., introductory address at St. Thomas's Hospital, 786
Messner, Dr. A., death of, 661
Methylene blue, the action of, on Löffler's bacilli, with clinical suggestions, 733, 792
Metropolitan ancillary schools of medicine, 517
—— Asylums Board, the, and contagion, 208; the cost of the, 329
—— Hospital, Jewish patients at the, 1393
—— Hospital Sunday Fund, the, 1499, 1505, 1571
—— medical schools having a complete curriculum, 509
—— medical schools, prizemen and medalists at the, 552
—— Police Surgeons' Association, 1233
—— Railway Company, King v. the, 1107, 1195
Meyer, Dr. A., obituary notice of, 715
Meyer and Meltzer, Messrs., wanted an artificial nose, 1524
Miall, Mr., the use of picric acid as a quantitative test for sugar in the urine, 1160
Michelmore, Mr. G., a case of foreign body in the air passages for a period of nine months, 321
Microscopical Science, the Quarterly Journal of (review), 578
Microscopy and Natural Science (review), 1037
Middle-ear disease, chronic, a case of cerebellar abscess, the result of, operation, death, 795
—— and its complications, antrectomy for persistent suppuration of the, 1221
Middlesex Hospital, the quarterly general court of the, 611; opening of the, 817
Midelton, Mr. W. J., ergot in obstetrics, 1351
Midland Homœopathic Institute, the, 420
—— Medical Society, annual meeting and conversazione, 1129

Midwifery, an Introduction to, a Handbook for Medical Students and Midwives (review), 385; a Practical Handbook of (review), 690
——— practice, the use of forceps in, 1427
Midwife's certificate, the, 1327
Midwives and death certificates, 1363
Midwives' Qualification and Registration Bill, 719, 832
——— question, the, 394
——— Registration Association, 888
Miles, Dr. A. B., death of, 661
Miles, Mr. W. E., a case of ankylosis of the spine and obscure enlargement of the right foot, 1028
Milk, desiccated, 118; and cream and milk powder, sterilised, 198; the spread of scarlet fever by means of, 449; coloured, 574; control in Copenhagen and Stockholm, 648; adulterated, damages for supplying, 990; traffic, sanitary protection of the, discussion on, 1115; sterilised, in New York, 1435
Miller, Dr. A., obituary notice of, 285
Miller, Mr. R., an action for fees at Dundee, 879
Miller, Mr. R. S., a case of spasmodic stricture of the pylorus, pyloroplasty, recovery, 1270
Milligan, Dr., on otitic pyæmia, 1427
Milne's antiseptic dressings, 443
Milton, Mr. H. M. N., an addition to present methods of closing large congenital fissures of the hard palate, 72
Mineral tea, 809
Mining purposes, explosives for, 1108
Mirfield Memorial Hospital, 322

MIRROR OF HOSPITAL PRACTICE, BRITISH AND FOREIGN.

ANCOATS HOSPITAL, MANCHESTER.—A case of Porro's operation; recovery, 1421; some cases of abdominal surgery, 1481—Multilocular ovarian tumour; extensive adhesions; hæmorrhage into one sac, and commencing necrosis; removal; recovery, 1535—Uterine carcinoma; vaginal hysterectomy; recovery, 1536

BRADFORD INFIRMARY.—A case of obstruction of the bowels treated by short circuiting of intestine, 1153—A case of retention of urine due to phimosis leading to cystitis and pyonephrosis; necropsy, 1346

BRISTOL GENERAL HOSPITAL.—A case of bronchiectasis due to impaction of a foreign body in the bronchus; physical signs of a large cavity; attempted drainage; death under anæsthesia, 78

BUCKINGHAMSHIRE GENERAL INFIRMARY, AYLESBURY.—A case of abdominal abscess and one of radical cure of hernia in a child, 440—Renal calculus; lumbar nephrolithotomy; pyæmia; nephrectomy six months afterwards; recovery, 742

COVENTRY AND WARWICKSHIRE HOSPITAL.—Traumatic rupture of the urethra; perineal section; a new method of fixing the catheter from the perineum, 1033

CUMBERLAND INFIRMARY, CARLISLE.—Ten consecutive cases of operation for diseases of the thyroid gland, 688

HULL ROYAL INFIRMARY.—Strangulation of intestine by a band; laparotomy; recovery, 195

KING'S COLLEGE HOSPITAL.—Inguinal hernia associated with hernia of the bladder; radical cure; remarks, 194—Rupture of the vas deferens; castration; remarks, 687

LEEDS GENERAL INFIRMARY.—Case of lithotrity in a child, 196—A case of malignant disease of the ascending colon producing intestinal obstruction; typhlotomy and subsequent colectomy; bowel sutured by Halsted's method, 853

LEITH HOSPITAL.—Fracture of the base of the skull; rupture of the internal carotid artery; necropsy, 912

LONDON HOSPITAL.—Two cases of Cæsarean section, 77—Case of disease of the spinal cord following influenza; remarks, 576—A case of injury to the spinal cord, 1031—Cases of duodenal and gastric ulcer treated by laparotomy; remarks, 1091—A case of removal by abdominal section of a subperitoneal fibroid which had sloughed and was lying free in an abscess cavity; remarks, 1346—A case of gastrotomy and retrograde dilatation for traumatic stricture of the œsophagus; remarks, 1420

MIDDLESEX HOSPITAL.—Five cases of cancer treated with cinnamon; remarks, 634—Four cases of traumatic rupture of large arteries, 1277—A case of Landry's paralysis, 1479

ROYAL HOSPITAL FOR CHILDREN AND WOMEN, WATERLOO-ROAD.—Tumour of the venter of the scapula infiltrating the subscapularis muscle in a boy aged ten years; growth of the tumour into the thoracic parietes; attempted removal; pneumothorax; death; necropsy; remarks, 741

ROYAL INFIRMARY, NEWCASTLE-UPON-TYNE.—Diabetic coma treated by saline infusion; temporary improvement; death, 975—Two cases of ureterotomy for removal of calculi, 1093

ST. BARTHOLOMEW'S HOSPITAL.—Acute general peritonitis; laparotomy; recovery; strangulated umbilical hernia; operation; recovery; remarks, 973

ST. GEORGE'S HOSPITAL.—A case of ruptured gastric ulcer successfully treated by immediate suture, 21—Pulsatile tumour of the popliteal space, simulating aneurysm; remarks, 795

ST. MARY'S HOSPITAL.—Five cases illustrating the diseases and the surgery of the appendix vermiformis, 257, 322

ST. THOMAS'S HOSPITAL.—Two cases (one of them fatal) of rupture of gonorrhœal pyosalpinx, resulting in large intra-peritoneal abscess, opened by abdominal section, 137—A series of cases illustrating the success attending the modern method of operation for strangulated hernia, 852, 911—A case of cholecystotomy; remarks, 1152

SOUTH DEVON HOSPITAL, PLYMOUTH.—A case of double empyema treated by simultaneous incisions; recovery; remarks, 384

SOUTH DEVON AND EAST CORNWALL HOSPITAL.—A case of perforating gastric ulcer; operation; fatal result, 22

STATION HOSPITAL, WINDSOR.—A case of cerebellar abscess, the result of chronic middle-ear disease; operation; death, 795

SUNDERLAND INFIRMARY.—Rupture of male bladder successfully treated by abdominal section and suture, 1032

SUSSEX COUNTY HOSPITAL.—A case of tuberculosis; anæmia; pyrexia; enlarged liver and spleen; ascites; jaundice, 1217

UNIVERSITY COLLEGE HOSPITAL.—Two cases of popliteal aneurysm, 439

VICTORIA HOSPITAL FOR SICK CHILDREN, CHELSEA.—Inflamed and irreducible omphalocele or congenital umbilical hernia; operation; death; remarks, 1216

WESTMINSTER HOSPITAL.—Notes on two cases of enteric fever with exceptional nervous symptoms, 382

LIST OF ILLUSTRATIONS.

Diagrams illustrating Experiments made concerning the Nature of Asphyxia Neonatorum (Dr. A. Morison), 7-9

A New Instrument for Surgical Drainage, and a Self-retaining Drainage-tube (Mr. J. Hardie), 13-14

Illustrations accompanying the History of a Case of Spinal Thrombosis and Hæmorrhage due to Syphilitic Disease of the Vessels (Dr. R. T. Williamson), 15

Diagrams depicting a New Tonsil Punch (Dr. A. B. Kelly), 18

Photographic Illustration showing the Absence (congenital) of both Pectoral Muscles on the Right Side in a Boy aged ten years (Mr. H. Littlewood), 19

Representation of the Boots of a Man killed by Lightning, together with those of his Companion, who survived (Dr. J. D. Wardale), 20

Photographic Illustrations depicting the Abnormal and Extensive Pigmentation of an Infant (Dr. W. A. Moynan), 20

White's Patent Masticator, 32

New Gouge Cutting Forceps (Dr. J. H. Nicoll), 32

New Hypodermic Syringe (Dr. E. H. Brien), 32

The Suppressed Photographs of the Hamburg Cholera District, 47; Illustrations of Blue Rag-court and Back of Blue Rag-court, Hamburg, 49

Photographic Illustrations depicting the Condition of an Infant one month old before Operation for Ectopia Perinealis and seven years and a half later (Mr. B. Pollard), 71

Diagrams showing the Construction of a Flask for Use in the Cultivation of the Bacillus of Tetanus (Dr. R. T. Hewlett), 73

New Splints for Use in Fractures of the Long Bones of the Lower Extremity, embodying the Principle of the Everted Foot-piece (Mr. E. A. Peters), 84

Engravings of a Palpebral Elevator in Operation (Mr. F. Bass), 85

A New Trocar and Cannula for Empyema (Mr. A. Kebbell), 85

A Modification of Volkmann's Spoon (Mr. J. H. Walters), 85

Illustration showing the Congenital Absence of Toes in a Male Infant (Mr. V. Pendred), 136

Engravings depicting an Apparatus for the Utilisation of the Water Pressure of the Main and its Application, 142

Silicated Carbon Pressure Needle Filter, shown in Position for use and in Section, 142

Plans of the Isolation Hospital at Stockholm, and an Engraving of the Kungsholm School, 154-5

Section of Villus from Fasting Rabbit and the same from Rabbit after the Ingestion of Oats (Dr. F. W. Pavy), 179

Engravings depicting the Condition of a Patient before and after Operation for Closure of the Jaws (Mr. P. Swain), 189

The Vertical Foot-piece on Leg Splints (median vertical section) (Dr. F. N. Windsor), 194

The Menotherm, 199

Temperature Chart of a case of Left Hemiplegia and Motor Aphasia without Coarse Brain Lesion (Dr. J. M. Clarke), 254

A New Axis Tractor (Dr. J. F. Le Page), 261

The Linked Truss, 261

Illustrations of Preparations of the Plague Bacillus, 325

Engravings depicting some Instruments employed in Diseases of the Eye, and Stroschein's and Llewellyn's Flasks (Dr. C. B. Taylor), 374-6

Illustration of a Pocket-knife ingested and passed by a Child two years and eleven months of age (Dr. G. B. Goodall), 382

Medicine Time Indicator, 387

Plan of Blogdam's Hospital, 401

Engraving representing a Mass of Nails &c. removed from the Stomach of a Man suffering from Chronic Mania (Dr. J. F. Gemmel), 432

Diagrams accompanying Remarks on the Physiology and Pathology of Blood Pressure (Dr. H. Campbell), 433

Photographic Representations showing the Marked Improvement in a case of Myxœdema treated by Thyroid Gland (Mr. J. Harold), 435

District Cholera Map of the Hamburg 1892 Epidemic, 459

Monument erected at the Central Cemetery of Budapest in honour of Professor Semmelweis, 556; Portrait of Professor Semmelweis, 557

"Reliance" Stethoscope, 579

A Barbed Hook extracted from Foreign Meat, 615

Diagrams illustrating the Technique of the Insertion of Murphy's Button in Intestinal Approximation (Professor J. B. Murphy), 624-5

Illustrations depicting a New Carriage for Medical Men, 637

Apparatus employed for filtering Milk at Copenhagen, 649

Bonnet-pin extracted from the Male Urethra (Dr. J. H. Simpson), 687

A Protector for Clinical Thermometers, 693

Engravings depicting an Improved Consulting-room Couch in Three Positions (Dr. J. R. Whait), 693

Diagram showing the Arrangement of the Wards at St. Marylebone Infirmary, 703

Photographic Representations of a Man before and after the Successful Removal of Extensive Orbito-maxillary Sarcoma (Dr. W. J. Collins), 737

A New Form of Ear Syringe Guard, 744

An Improved Catheter (Mr. W. Paulson), 744

Engravings accompanying a Note on the Auscultation of the Second Sounds of the Heart (Dr. W. Ewart), 790-1

A New Poison Bottle, 800

The New Sydney Hospital, 828

An Improved Apparatus for the Introduction of Fluids into the Skin under Pressure (Dr. P. S. Abraham), 859

The "Farringdon" Couch, 921

Patent Percolating Teacup, 921

A Rectal Ointment Introducer, 921

A New Bedpan, 921

A Percuteur, 955

Diagrams illustrating a case of Symblepharon in which a Portion of Skin atrophied and disappeared after its Isolation by Cicatrix (Mr. T. P. Teale), 961

Illustrations depicting the Operation of Bloodless Amputation at the Hip-joint (Dr. J. A. Wyeth), 964

Anterior and Posterior Views of a Patient suffering from Ankylosis of the Spine and Obscure Enlargement of the Right Foot (Mr. W. E. Miles), 1029

Messrs. Krohne and Sesemann's Regulating Inhalers for the Use of Chloroform or Ether, 1038

Diagram depicting what happens in Uncomplicated Death from Chloroform Poisoning (Surgeon-Lieutenant-Colonel E. Lawrie), 1060

Illustration showing the Position of a Thyroid Adenoma and Cystic Accessory Thyroid in a Woman, with representation of the Growth removed by Operation (Mr. R. Jones and Mr. W. T. Thomas), 1088

Temperature Chart of a case of Diphtheria, showing the Beneficial Effect of Antitoxin after Tracheotomy (Dr. B. Roue), 1091

Improved Thermo-Cautery (Mr. R. O'Callaghan), 1102

A New Bone-cutting Forceps (Mr. W. A. Lane), 1103

A Tube for the Introduction of Iodoform into the Uterus (Mr. G. A. H. Barton), 1103

Diagrams showing the Various Stages of an Operation for Hypospadias in a Boy on the lines advocated by Thiersch for Epispadias (Mr. G. H. Makins), 1142

Tracing showing the Areas of Resonance and Dulness in a case of Perforating Gastric Ulcer with Subphrenic Pneumothorax, for which Laparotomy was successfully performed (Dr. W. Ewart and Mr. W. H. Bennett), 1147

A Pair of Forceps made with Blades to introduce separately, in order to facilitate the Extraction of Calculi from the Gall-ducts &c. (Mr. W. Anderson), 1153

Apparatus for the Rapid Estimation of Sugar in Urine, 1165

Tracings accompanying a Paper on the Pulse in Aortic Stenosis (Dr. G. Steell), 1207-10

Microscopical Drawing of Diseased Tissue removed in a case of Lymphangioma Cutis (Dr. J. Galloway), 1212

A New Hypodermic Syringe (Dr. C. Bowen), 1224

A New "Non-lighting-back" Burner, 1224

Illustrations showing the Enlargement of the Left Leg in a remarkable case of Mycetoma (Surgeon-Major W. K. Hatch and Surgeon-Captain F. L. Childe), 1271

Universal Nasal Snare (Dr. G. MacDonald), 1287

Microscopical Drawing of Papillomatous Growth removed from the Septum Nasi in a Man eighty-two years of age (Mr. P. R. W. De Santi), 1342

Self-retaining Aural Polypus Forceps (Mr. W. Wingrave), 1355

New Menthol Inhaler, 1355

Hypodermic Syringe for Antitoxin Injection, 1355

Photographic Representation of a House in the Cassim Pacha District, Constantinople, 1371

Engraving depicting a Papillomatous Ovarian Cyst removed five years after a similar Cyst in the opposite Ovary (Mr. A. Doran), 1416

A Truss for certain Forms of Double Hernia (Mr. H. A. Rawlins), 1429

Photographic Illustration of a Street in the Balat District, Constantinople, 1442

Pulse Tracings in a case of Beri-beri and Engravings illustrating the Pathological Anatomy of that Disease (Dr. E. W. von Tunzelmann), 1469, 1471

A New Artificial Eye, 1493

"Respiro-regenerator, or Perfect Inhaler," 1493

The "Movilette" glasses, 1493

Pulse Tracings accompanying a paper on the Pulsus Bisferiens of Aortic Regurgitation (Dr. J. M. Clarke), 1529-31

Sphygmograms of the Radial Arteries illustrating an Avoidable Error in Sphygmography (Dr. A. Morison), 1531-2

The "Reynolds" Bandage Shoot, 1544

Photographic Representation of Cottages in the Poorest Quarter of Belgrade, and View of the Town Hospital and of some Tramps, 1577

END OF THE SECOND VOLUME FOR 1894.

PRINTED and PUBLISHED by the REGISTERED PROPRIETORS at No. 423, Strand, and Nos. 1 and 2, Bedford-street, Strand, in the Parish of St. Martin-in-the-Fields, Westminster, in the County of London.—Saturday, Dec. 29th, 1894.
